

From the mayor desk 2024

Happy 2024

It's been a challenging year for most of us but thanks to God Almighty, we're still here. Life is enough for me.

Each new year should inspire us to make positive changes in our lives. The perfect time to look back, sort through the mess and decide what you're taking into 2024. Examine attitudes, relationships, finances or any other "thing" that may tamper with your peace. No more wasting time trying to change people, that God's job. Tamela Mann says it best "Change ME O God, make me more like you". Forgive and Let go, show compassion and understanding for others, help others whenever you can, YOU be that light that inspires other people to shine. Keysville let's set the example, no mess, no stress, just love for each other in 2024. That's what makes a community great. I love every last one of you and there is nothing you can do about it.

Mayor Linda Wilkes

January

A special thanks to the Keysville Concerned Citizens for organizing a spectacular Martin Luther King Day March.
